American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State Street, opposite Kilby St., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

In style and general appearance it resembles—and is quite equal to—the London Illustrated News, which is world-renowned for the excellence and variety of its illustrations. PROFESSOR WOOD'S

HAIR RESTORATIVE.

It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their looks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—even scald-head—and in no possible case will it fail of curing, as if by magic, nervous or periodical Head-ache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling to any imaginable age. Read and judge.

MILFORD, Worcester Co., Mass., Nov. 1855.

PROF. O. J. WOOD—Dear Sir:—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1836, my hair commenced falling off, until the top of my scalp became bald and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for restoration. Seeing your advertisement, I was induced to give your article a trial, and to my utter astonishment, found, after a few applications, that my hair became firmly set, and assumed a glossy and beautiful appearance; and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches and a half in length, and growing fast.

Yours truly,
HENRY GOODRICH.

CHARLESTON, Mass., Aug. 9, 1855.

GENTS:—Nothing but a duty and sympathy that I feel to communicate to others that are afflicted as I have been would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots entirely bald. I have now used the Restorative about five months, and my hair is entirely changed to its original color, brown, and the new hair is over three inches in length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry and it has ceased to come out as formerly.

Respectfully yours, &c.
MRS. R. A. STODDARD.

From Mrs. Ingalls, a well known nurse in Boston.

BOSTON, Oct. 19, 1855.

GENTS:—At your request, and being so highly pleased with the effects of the Restorative, I am free to state that my hair had become quite thin, and entirely white. I have for the last five years been in the habit of using dye, but hearing of the extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness, and also to its former color, which is light brown.

Yours respectfully,
MRS. INGALLS.

The following is from the Pastor of the Orthodox Church, Brookfield:—

BROOKFIELD, Mass., Jan. 12, 1855.

PROF. WOOD—Dear Sir:—Having made trial of your Hair Restorative, it gives me pleasure to say, that its effects have been excellent in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled from my childhood, and has also restored the hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure and profit.

Yours truly,
J. K. BRAGG.

(From the ... Jersey City Telegraph.)

WHAT IS IT ... THIS WOOD'S HAIR RESTORATIVE?—Is a question ... daily by hundreds. We answer without hesitation, or fear of contradiction, that it is the only article known which will do all it promises for the human hair. It will cause its growth—it will stop its falling—it will restore its natural color. It is not a hair dye, but a speedy and efficacious Restorative.

Who Voted Against Abolishing the Black Laws.

The New York Tribune thus places on an unenviable record the names of the fourteen northern representatives who voted against the House bill to nullify the black laws of the bogus Legislature of Kansas. The inferences which the Tribune draws relative to the policy of the incoming administration appear well founded. A ruler of this State, in particular, has a keen perception of what would be agreeable to the powers in prospect. He is a candidate for office at Washington—and he would never have voted against the Kansas relief bill were he not certain that such was the desire of the new dynasty.

The bill for the relief of Kansas, which passed the House of Representatives on Tuesday last was in its preamble and its provisions, of a character eminently moderate. It sought, in the most direct manner possible to sweep away a code so barbarous and oppressive that, in almost every particular, it is a moral violation of the spirit of the Constitution of the United States—a code which would not be tolerated in any country governed by a constitutional monarchy—a code so tyrannical and so absurd that no other remedy presented itself, a revolution to overthrow it would be demanded by the plainest dictates of decency and common sense and all respect—a sham code devised by a sham Legislature composed of a sham citizens of Kansas—a code which no man in possession of his intellect will venture in the abstract to defend. The object of the bill is to give the people of Kansas a fair chance to make fair laws for their own government—We do not expect Southern members, who really have no more political freedom than their slaves have social freedom to vote fairly on such a measure but we have a right to look for something to touch of manliness in the conduct of Northern Democrats or those who call themselves such. There are not so many of them as there used to be in the House of Representatives, and this is the, we should think, the warning to them that honesty is the best policy. We are ashamed to say that four common members from the Free States voted against the most humane and necessary bill which has been introduced in Congress for many years. Of these all were of the regular Democratic stripe except Mr Thomas R Whitney of the VIth New York District who is composed of equal parts of Regular Whig and Dark Lantern, and Mr Jacob Broom of the IVth Pennsylvania District, who is, or was a Dark Lantern all over. All those who thus in the crack of the party whip filed with look step into the dull gang of Democratic despotism should be regarded and we put them conspicuously on record. They are as follows

James C Allen Ill	Tho L Harris, Ill
Jacob Broom Pa	Joh Kelly, N Y
John Cadwalader, Pa	Smith Miller Ind
Wm H English Ind	J L D Morrison, Ill
Thos B Florence Pa	Asa Packer, Pa
J J D Fuller Me	Geo W Peck Mich
Augustus Hall Iowa	T R Whitney, N Y

There they are with Whitney at the tail, and where he ought to be.

We should not regard the votes of these illustrious four cents as of so much importance that we no consider them to be a little perceptible. Our readers will bear us witness that we have read unfairly abandoned from prejudice the incoming Administration, and have hoped, even against hope that it might do something for Kansas. But we suppose (and why should we not suppose) that these poor hangers on of the Buchanan party have received their cue and that their votes have foreshadowed Mr Buchanan's policy, what have we to hope for from the Administration which in a few days will take the reins of the Government? If Democrats vote in this way in the present House, in which they are in a minority, how will they vote in the next, in which the are sure of a majority with but added to the native and inborn sycophancy which nothing can cure?

Thus have Fuller and his associates wantonly subjected themselves in view of the people of the North. And while the constituents remember this base servility to the interests of slavery, let them also remember that the slave holders themselves could not all refuse to repeal these wicked laws—that some of the once nace-am then Southerners, who in their hearts despise the Bloody Border Ruffian Code fled from their seats and dodged the vote—they did not desire as Southerners, to vote against the interests of the South, and would not, as men, disgrace themselves and their children by voting for unconstitutional and inhuman laws. Gov Aiken of South Carolina was among the number.

The State Election in New Hampshire takes place on Tuesday March 10th. The Republican candidate for Governor is William Haile of Hinsdale, for Lieut Governor, Jeremy O Nute of Farmington, for Representatives to Congress—1st District, James Pike, 2d Moses W Tappan 3d, Aaron H Cragin.

The vote will not, of course, be so full as it was at the Presidential election, and the hunkers are building some hopes upon the comparative quietness of the Republicans—but we think they will gain nothing, to speak of. A dozen or two of Straight Whigs have been trying to help the hunkers by a Straight Whig Convention—but it was a sorry burlesque.

Winter seems to have exhausted its energies in the intense arctic weather of January and the early part of February. For a week or ten days past the temperature has verged upon that of April. The recent moderate fall of snow has been mostly carried off by the warm weather of Monday and Tuesday, and last evening it commenced raining.

Governor Hamlin will make a short visit to his home on the Penobscot before leaving for Washington. He will probably be in this city this week. The duties of the Executive department will soon devolve upon Hon Joseph H Williams, President of the Senate.

TELL IT NOT TO THE ADOPTED CITIZENS.—The Democrats and Know Nothings of New York have formed a coalition and merged themselves into one party in the recent town elections and failed miserably at that. Yes—the "Dark Lantern party and the Democracy are now one and the same—with the Straight Whigs thrown in. The Buffalo Express compares them to the Siamese twins, but the Express does great injustice to the twins.

The Democrats have just voted with the Know Nothings in Congress to exclude foreign voters in forming the Constitution of Minnesota.

MORE GARROTTING. On Thursday evening about 3½ o'clock, four young ruffians entered the jewelry and clock store of Mr Joel Whittemore No 950 Washington Street, Boston and while one of them was making some inquiries about the purchase of a clock, the others suddenly seized Mr Whittemore from behind and garrotted him until he was speechless. They then proceeded to take whatever they thought of value, and after securing five gold watches left by customers to be repaired and a few other articles they quietly took their departure, leaving Mr W., who is an old man of about 70 years, more dead than alive from fright. The names of the robbers are not known.

The lecture of Rev T W Higginson, last evening, in the Independent Course was upon Kansas and the Union. The audience admired his thrilling pictures of the bravery and patriotism of the Free State men and women of Kansas but had little sympathy with his idea that disunion is the necessary and only method of meeting the encroachments of slavery—that, in fact, the Union is hopelessly doomed in consequence of the antagonisms of freedom and slavery. We, at least, don't believe it and don't believe in its being preached to the people. We'll try again at all events, before we give it up.

FIRE AT EAST PITTSFIELD. On Monday night, the store at East Pittsfield, owned by Gowed Hathorn and occupied by Simons & Wyman, was destroyed by fire together with the stock of goods. The loss was about $1100. Store insured for $400 and there was also an insurance on the goods. We are indebted to Mr Gray, conductor, for these facts.

FATAL ACCIDENT. In Etna yesterday morning 24th, as Mr Sewall Abbot was engaged in loading logs on a sled one of them rolled off striking him on the head and killing him instantly. He was about 15 years of age.

The Belfast Journal says—it is stated that Mrs Gardner who is supposed to have poisoned her husband at Hingham is a native of Islesboro and formerly worked in a tailoring establishment at this place.

SUPREME COURT. Tuesday Feb 24. The evidence in the case of State vs. John Evans, indicted for larceny or receiving stolen goods, was completed, and Mr Knowls made the argument for defence.

SUNK BY THE ICE. In New York harbor, on the 18th inst, a large sheet of ice came down the river, and striking the bark Herald so injured her so badly that she sunk in a very short time.

Kossuth still owns 1000 acres of prairie land in the vicinity of Corpus Christi in Texas which were presented to him when he was visiting in this country.

To day (25th) is Ash Wednesday, which commences the season of Lent.

A Bold and unmistakable Falsehood Nailed to the Counter.

We learn that the bill creating an eighth Justice of the Supreme Court has been passed by the Legislature and approved by the Governor. In all the discussions on the subject there has been no pretence even that the public interest required an additional Supreme Justice.—*Portland Argus.*

A more gross and unblushing untruth could not be stated. The report of the speeches in the House on the Judiciary Bill shows how fully the *necessity* of an *eighth Judge* was urged and demonstrated. Dunn of Calais, Johnson of Augusta and Drummond of Waterville especially argued the point and overwhelmingly showed that the crowd of business before the Supreme Court imperatively demanded the necessity of the number of Judges. The same state of facts existed when the Commissioners recommended the eighth Judge in 1855 and no impudent falsehood can invalidate the facts as they exist at the present time.—*Ken Jour.*

THE PARLOR SEWING MACHINE, advertised in another column and for which Mr. Butler now at the Dwinel House is agent, is highly spoken of by some of our Boston cotemporaries and others. The Norfolk County Journal says

"They perform all sorts of work stitching, running, hemming, over and over, etc. *precisely as it is done by hand*, with one thread only used directly from the spool and passing through the cloth as if sewed by hand. The work is much handsomer than can be done by hand because is necessarily more uniform and even and accomplished much faster and more easily. The Parlor Sewing Machine is a fine piece of mechanism. It is simple in its construction and not liable to get out of repair. It is well made and handsomely finished and is a piece of useful furniture which any lady might like to have in her house. It is a machine which tailors and others, who wish to have good and reliable work, may use with much advantage without any fear of ... and apply to the sewing of all parts of a garment in the real and ..."

THE CHRISTIAN RELIGION. The will of the late Hon John M Clayton of Delaware, has been published. The first clause of it is as follows

"First—I give to my friends and relatives, as well as to all others, who may think my opinion of any value this testimony that the religion taught in the New Testament is the best that has been offered for our adoption, both for this world and for that which is to come, and that Jesus Christ was the Messiah, and will remain forever the Redeemer and Saviour of fallen man. Let my humble testimony stand in favor of the Christian religion. I am deeply, thoroughly convinced of its truth."

The ship Northern Empire, built some three years since in this city by Wm M Rogers & Son, has recently been sold in Liverpool, for $70 000, cash. $60,000 of the amount is receivable by parties in this city.—*Bath Tribune.*

Legislative

SATURDAY, Feb 21.

Mr Chapman presented a petition of Thomas D Boyd and 51 others for an insolvent law. Referred to committee on Mercantile Affairs and Insurance.

Passed to be engrossed.—An act to incorporate the City Insurance Company. Resolve for the representation of Maine at the Paris Exhibition of Agriculture in 1857.

HOUSE—On motion of Mr Strickland, of Bangor,

Ordered, That the committee on the Judiciary be directed to enquire what further legislation may be necessary to compel the repayment of taxes where real estate is redeemed from the levy of an execution by those who may redeem the same.

On motion of Mr Hersey of Bangor,

Ordered, That the Joint Standing Committee on Militia be directed to designate one member of said committee to visit Bangor and ascertain what repairs if any, are necessary to be made on the State Arsenal buildings located in that place in order to preserve the public property deposited therein.

Read, and assigned.—An act to change the name of the Board of Education of the Maine Conference of the Methodist Episcopal Church, an act additional to an act to incorporate the Kenduskeag Log Driving Company, passed August 1, 1850, an act relating to 1st School District in Bucksport.

Mr Copp, of Liberty, laid upon the table a Bill in relation to free Banking and moved that the same be referred to a Joint Special Committee. This bill authorizes free Banking somewhat in the form that free Banking is authorized in New York.

Messrs Hinckborn of Prospect and Strickland of Bangor opposed the reference but it having been stated by Mr. Drummond, of Waterville that the Committee on Banks and Banking having made the matter the subject of some conversation, and had no objections to such reference and it also having been stated by Mr Woodman of Bucksport that although there was probably a very large majority of the members of the Legislature opposed to any very great changes in the laws of the State in relation to the Banking system still he did not think there was any disposition to prevent the subject being examined to meet the desires of some members of the House who were friends of the Free Banking system they were not unwilling such reference should be made and after Messrs Copp of Liberty, Warren of Buxton, and Merrill of Harmony and others had spoken in favor of such reference the bill was referred to a Joint Special Committee.

The Speaker announced the following members as the committee on the part of the House on the petition of Antoinette L B Blackwell viz—Messrs Talbot of Machias, Pearson of Machias, Parlin of Westbrook, Allen of Thomaston, Buxton of Warren, Brown of Solon, Brown of Medford, Milliken of Camden, Pierce of Monville, and March of Dayton.

Mr Crosby of Dexter said that he rose to a question of privilege. He had a paper in his hand printed in the State published in Biddeford called the "Union and Journal." In that paper reference was made to him in a letter from its editor in which the following statement was made: "He (Mr. Crosby) was a straight Whig in 1856." He wished to say that the statement was incorrect; that he was one of the early friends of the Republican party, had worked hard, and worked hard for it, had ever remained attached to its organization and was now as good a Republican as any member in the House.

Referred.—Petition of David S Plumley and others for an Insolvent Law, referred to Committee on Mercantile Affairs and Insurance.

The Burdell Case.

The New York Tribune of Saturday has the following statements in regard to this case

"We have learned, in common with the rest of the world, the hypothesis that Mrs Cunningham never became Mrs Burdell, but an affidavit which we publish herewith, puts a different face on the matter. Dr Spicer, who carried on the dentistry business at No 31 Bond street in partnership with Dr Burdell last summer, and who we understand to be a very respectable man, swears that he received a letter at Sackett's Harbor, some time in the first week of November wherein his former partner stated that he had married Mrs Cunningham, and alluded to his correspondent's affidavit in the slander suit as that which forced him so to do. That affidavit contains an account of what took place in the deponent's presence on the 20th of September, when the well known difficulty about the note arose and the policemen were called in. Dr Spicer's narrative of the transaction differs materially from those given by other witnesses. He heard no abuse from the lips of Mrs Cunningham, but plenty of it from her landlord. After Dr Burdell had left the house he himself searched everywhere, at Mrs Cunningham's request, for the note, without success. But on his return the Doctor informed him that the note had never been lost, and that he had trumped up the story in order to have the tenant out of the house, that he might put another woman in her place. Dr Spicer further says that Mrs Cunningham always spoke kindly of Dr Burdell, and subsequently to the note quarrel said that she loved him as she loved her very being.

It is not for us to pass upon the probabilities of the story which Dr Spicer has sworn to; it will be time enough to do that when he shall have given his evidence orally and been subjected to cross-examination, and when his statements shall have been compared and collated with those of other witnesses at the trial, whether in the Court of Session or before the Surrogate. But no one will dispute that he was, prima facie a sufficiently important witness to have been subpoenaed by the Coroner. No one can deny that much of what is embodied in Dr Spicer's affidavit would be highly relevant in an inquiry into the murder before any magistrate. Not a one Coroner Connery. He speaks to facts in direct conflict with those given in evidence by witnesses at the Inquest and relating to points whereon the case against Mrs Cunningham very much depends. He had known Dr Burdell from boyhood and had been intimate with him during the last year of his life. He came to the city so soon as he heard of the murder, apprised Coroner Connery of his arrival, and was in attendance throughout the last week of the Inquest growing more and more surprised every day that he was not called on to testify.

There was abundant reason for dismissing Mr Connery from office before but his wilful neglect to examine a witness so important would seem to complete the measure of his offences. We trust he may never be allowed to hold another inquest."

REV MR KALLOCH.—The trial of Mr. Kalloch will not probably occur for two or three weeks to come. It may be deferred until another term of the Court. We hear it stated, says the Telegraph, that Mr Kalloch could not have a fair trial at Cambridge, the place where it is charged he committed the act. It is also stated that some of the jurymen board at the Lechmere House, and that the proprietors of that house have been very busy in exhibiting the premises and in detailing the details of the alleged offence. If this is true, it is not at all improbable that some of the jurymen have already formed opinions in the case, and this would be a sufficient cause for postponing it to another term of the Court. The Court must, however, decide this question.—But, if Mr Kalloch can have a fair trial, it would be much better for him and for his church to have the subject investigated immediately. The public are now in suspense, awaiting the result of a legal examination.

It has been stated that the lady who accompanied Mr. Kalloch to Cambridge at the time the alleged offence was committed, has been or would be arrested. This is incorrect. The Commonwealth has made no effort to bring her to trial. We learn that she is very respectably connected, and has always sustained an excellent character. She has never been suspected of immoral conduct.

THE ISLAND OF CUBA.—The Queen of the Antilles is the glory of Spain. She is guarded with care and cherished with affection. Ever since the Ostend manifesto made its appearance the Spanish forces on the Island have been gradually increased, and large squadrons watch around her coasts. Cuba contains from thirty two to thirty five thousand square miles of the richest soil, and its products are immensely valuable. The population at the close of 1855 was estimated at 1 446 462, divided, according to Mr Thrasher—whose misfortunes became so much a subject of interest with his American friends—as follows

Whites	563,693,	or 39 per cent.
Free colored	219,190	or 15 per cent.
Slaves	662,509	or 46 per cent.

This population has increased in the following ratio

In 1775 it was	170 270
1817	554 998
1827	700 485
1841	1 007,624
1850	1,247 230
1855	1 446 462

Among the free blacks, strange to say, are a large number of property holders and they are by no means so generally degraded as their brethren who are slaves.

The estates of the Island are estimated to be as follows: Sugar estates, 1 442, tobacco 912, coffee 1,682, and grazing, 8 030. The annual value of the products is about $63,000 000, consisting in part of sugar, $18,000,924, fruits, $14 839 050, molasses, $1 402 728, sugars, $1 257,498, tobacco leaf, $600 000, coffee about $6 000 000, according to the tables of 1852. The imports of the Island are thirty millions of dollars annually, and the exports about twenty eight millions. While England receives but a million and a half of the products of Cuba, the United States takes nearly seven millions. The commercial system of Spain, however, checks the commerce of its dependencies and leads to a great deal of smuggling. The duties are mostly *ad valorem*, the value, however, being as far as possible fixed determinately by a tariff. There are duties levied also on the imports of the Island itself and a discrimination is made, though not a very liberal one, in favor of Spanish bottoms. The avenues which are extorted in these and various other ways are estimated at sixteen millions of dollars. The Governor Generals acquire fortunes very rapidly during the few years they reside in Cuba, and very hard things are said of them, particularly of O'Donnell who a few years since was entrusted with the care of government, and returned home with an enormous fortune. The slave trade flourishes in spite of all the pretended efforts to restrict it, and is winked at by persons high in office.

The members of the present cabinet have all served four years—the first instance of the kind in the history of the government. Considering the character of the incumbents it is also a testimonial that we are a long-suffering people.

Potatoes and corn are said to be like certain sinners of old, because having eyes they see not, and having ears they hear not.

THE GOOD SAMARITAN OUTDONE.—Mrs M N Gardner whose biography lies open before us, has certainly been a Good Samaritan on earth and the Indian maid on Nahmeoultah, can never be forgotten as the compounder of the celebrated Indian Balsam of Liverwort and Boneset which is saving thousands in our midst, doomed victims of Consumption, or sufferers from severe Colds and Coughs Asthma, Croup and Bronchitis. This pleasant medicine has great and sovereign virtues and should be early employed in all cases of lung complaints. It is for sale everywhere. Jeremiah Henderson of Wilmington, North Carolina suffered for seven years and five months with ... several ulcerous sores on his leg, and ... on his arms which defied every kind of treatment, though he used some of the most reputed remedies in the ... for them, both internally and external. It was without avail. At last he had recourse to Holloway's Ointment and Pills which quickly caused the wounds to have an improved appearance, and by continuing with these remedies for ten weeks he was completely cured, and has ever since enjoyed the best of health. f10

THE REASON

Why nine-tenths of ladies prefer *Wheeler & Wilson's Sewing Machine* to any other, is because it does better work than any other, yet invented. If any one doubts this let them call at Hatch & Thompson's of this city and see and examine specimens of the work.

TO THE DAILY WHIG AND COURIER

LATER FROM EUROPE.

ARRIVAL OF THE

Steamship Indian

AT PORTLAND.

PORTLAND, 24th.

Steamship Indian from Liverpool 11th inst., at 11 A. M., arrived this morning at 6 o'clock, making the passage in 12 days 19 hours, and bringing four days later news.

British.

Parliament has published an account of publication and expenditures for the year ending Sept 30th, 1856. The total income from all regular sources, of the revenue was £71,165,000, and the total expenditure £68,567,000.

In the Lords, a desultory discussion was held as to whether the Chinese vessel which gave rise to the present China war was or was not under the British flag. Lord Lyndhurst referred to a recent article in the Monitieur, intimating a probability of an union of the Danubian Principalities. He wishes to know whether the Divans about to assemble, were to take into consideration the question of the Union, and whether the question was to be finally decided upon by the representatives of the great powers?

The Earl of Clarendon replied—He had certainly read the article in the Monitieur with surprise; but at the present moment he should abstain from expressing any opinion upon the subject.

In the Commons—In reply to Mr Roebuck, Sir C. Wood said no fresh Arctic expedition would be sent out without being provided for in the estimates.

Mr. Disraeli repeated that a treaty had been made by France to cede to Austria her possessions in Italy.

Lord Palmerston replied, that no such treaty existed, though he admitted that France, during the Russian war, had agreed with Austria to repress insurrection, should it occur in Italy.

The Gazette contains the appointment of C. H. Darling, now Governor of Newfoundland, to be Governor of Jamaica, and of Sir A. Bannerman, now Governor of the Bahamas, to be Governor of Newfoundland.

Ship News.

The Agra, from Shanghae, is reported off the Western Islands, with a cargo of 2,389 chests of tea, and 617,500 pounds of tea. The Virginia had arrived from Foo-chow-foo with tea.

The ship Adriatic, which stranded in Dungarvon Bay, has been taken into Queenstown harbour, with 600 tons of cargo.

Commercial.

In the Piccadilly Market and at the Bank of England there was increased activity, owing to a temporary demand for money to pay for gold purchased for France. Continental exchanges continue with favorable appearance at Hamburg. The rate of discount has declined to 3 per cent.

France.

The Presse says, in its weekly Commercial review—Business shows no symptoms of revival; the calls for daily consumption suffice to keep some manufactories at work, and retail sales naturally go on to a certain extent; but speculation continues to be reserved, and the high price of everything checks exportation.—Advices from Rouen and Alsatia report a general state of quiescence among the cotton manufacturers; they cannot sell at remunerative prices. Lyons has been for the last month in a more favorable position; some very good orders have been received from America, and the Poles are also have bought a considerable quantity of rich stuffs, which, notwithstanding the great price, go off pretty easily. The manufacturers of other staffs are still in the dead season. Corn is somewhat higher.

Spain.

The Queen has recovered from the measles, and has postponed her trip to Andalusia.

Prussia and Switzerland.

The Presse says—We stated with regret that he news relating to the Neufchatel affair is decidedly not as good as we had a right to expect.

Letters from Berlin, as well as from Berne show that all difficulties are not yet surmounted.

Austria.

The London Morning Post's Government (Austrian) Press correspondent says—The Emperor of Austria has decided on granting a general amnesty to all political offenders in the empire.

It is said that the Emperor of Russia will do the same with regard to his exiled Polish subjects. The Russian amnesty will take place about the time the Emperor Alexander visits Paris, May or June next.

The relations between Austria and Prussia is anything but improving, and the same may be said of Austria and France.

Turkey.

The firmans of convocation are about to be forwarded to the principalities. All the political exiles are now at liberty to return. The Porte is about to take formal possession of the Delta of the Danube. Austria had officially notified the Porte that the evacuation of the principalities would be completed on the 24th March. The Turkish troops were to enter afterwards.

Greece.

A telegram from Athens of the 25th January, announces that the protecting powers had made certain propositions to King Otho relative to his finances and which were accepted. Also, that the King had promised to remodel his ministry on condition that the allies withdraw their troops from Greece. Two ships have already left Toulon for the Piræus to embark the troops.

Persia.

The Oriental steamer Aden, with advices from Bombay to the 17th January, has arrived from Suez. There is nothing further of importance from the Persian Gulf. General Outram and staff left Bombay on the 15th January for Persia. Bushere were reported healthy. The Paris Presse D'Orient of the 26th, says, that Feruk Khan has made submission to England.

China.

A letter from the Chinese Seas, dated Dec 20th, and published in the French Moniteur of the 26th, gives some new details of the late affair at Canton, showing that the damage sustained by the foreign merchants was not so great as at first stated—for the 13 European factories at Ching-Sam-Hong, five were destroyed of the 80 foreign factories at Canton, and 21 were burnt down.

The Governor's at Canton is floating population of 25,000 to 30,000 vagabonds—refugees from all parts of China, and these men, as soon as the English ships commenced firing, rushed into Chi-Sam-Hong, and having first pillaged the European stores, set fire to them. The British Admiral sent some shells among them which caused them to fly in every direction, and they left a number dead. The French seamen in a great measure extinguished the fire.

The Chinese town suffered horribly—as well by the fire from the English ships as by the native robbers. Of the twelve great factories belonging to the Hong merchants, near the Tartar line, nine were destroyed by the first attack. A great number of merchants have emigrated to Shanghae; but the 500,000 inhabitants of Canton cannot so easily dispose of themselves.

The British Parliament has issued voluminous blue books of correspondence, wherein Earl Clarendon expresses full approval of all the acts of Admiral Seymour, Minister Bowring, and Consul Parkes.

The King of Corea has opened all the ports of his territories to the commerce of all nations.

Latest.

The Persian War.—A Marseilles despatch of 10th states that Gen Bamler had been sent by the Persian government to the seat of war on the Persian Gulf, but had left Herat in a good state of defence. Persians much excited by the English invasion. Great agitation prevailed in the Province of Urumiyah, and the news of a revolt at Maraghat has been confirmed. The revolters had pillaged the town. Fifteen English vessel were at anchor off Bunder Abbas.

SECOND DESPATCH.

Congressional.

WASHINGTON, 24th.

SENATE.—Mr Hale moved reconsideration of the vote passing the Minnesota bill.

Mr Thompson of Ky was opposed to the bill because it would bring in two new Senators, against what he considered the best interests of the country.

Mr Douglas said the people of the Territory have a right to admission as soon as they have sufficient population. He hoped reconsideration would prevail, that they might strike out the amendment confining suffrage to citizens of the U. S. and the bill pass as it came from the House.

The motion was opposed by Messrs Adams, Bayard and Butler, but prevailed, 35 to 21.

Mr Hale moved to reconsider the vote adopting the amendment restricting suffrage to citizens of the U. S.

Without disposing of the subject, the Senate adjourned.

HOUSE.—The legislative and judicial appropriation bill passed, concurring by two thirds in the action of committee of the whole striking out the appropriation for the Kansas Legislature.

The Senate's resolution for ascertaining and fixing, in conjunction with the British gov't, the relative value of British and American coin was passed.

Mr Sherman said he had noticed in a report of yesterday's proceedings the words "That is a lie" uttered in a low tone, and attributed to Mr Wright of Texas as applied to something which he, Mr S. had said in the debate on striking out the appropriation for the Kansas Legislature. He now asked Mr Wright if the report was correct.

Mr Wright said he cannot say it is no disrespect to the House. He believed it was, and now believed the statement by that gentleman untrue.

Mr Sherman said he believed it was the language of blackguardism, induced by excitement and intoxication.

The Speaker reminded the gentleman that he was not in order.

Mr. Sherman had supposed it was only necessary to call the attention of the member to the remark which had been used, to call forth from him a manly retraction, but he had found himself totally mistaken.

Mr Wright replied that he could not of course be expected to handy epithets with the gentleman from Ohio, to fit the relieved himself from the imputation already cast upon him—and that was all he had to say.

The House passed a bill providing for refunding the duties on goods destroyed by fire in New York.

Mr. Colfax, from the Committee on Elections, to which the House referred the petition of 2200 citizens of California, asking the expulsion from the House of Mr. Herbert for killing the waiter Keating, reported that the petition was accompanied by no proof, and no authority was given the Committee to compel the attendance of witnesses; therefore, it was for the House to determine what further action should be taken.

Mr. Herbert remarked that he was credibly informed by Californians now here that this petition was got up in the Vigilance Committee rooms at San Francisco. He did not believe a man of them ever voted for him, and they were considered a band of outlaws. He looked on the petition as a compliment, from that quarter.

Mr. Walker inquired of Mr. Colfax what was the object of making the report, and proposing no action.

Mr. Colfax replied—because it was made by the unanimous intentions of the Committee, and for the reason that the House might if they saw fit, direct further action.

The report was tabled.

Mr Walker, having been Herbert's counsel, had endeavored to say a few words, but Mr Trafton interposed an objection which Walker retorted came from a political parson"—but afterwards said he did not remember that Mr Trafton was a minister, a profession which prevented him from resenting an insult. He was therefore hardly sorry for what he had said.

The House then went into committee of the whole, and Mr Washburn of Me. expressed a desire to take up the river and Harbor bills.

Mr Letcher, "What's the use? They will only be vetoed."

Mr Washburn, "We'll pass them over the veto."

After several hours struggle the committee rose, and Mr Washburn offered a resolution to discharge the com. of the whole from the bill to continue the improvements of Cape Fear river, and that the House take it up, and that it shall be in order to submit amendments for other similar works.

Pending this, the House adj

THE LUXURY AND PROFIT OF

HONEY MAKING.

☞ Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable management of the apiary by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrements, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in this size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

☞ For sale fifty swarms of Bees, with the new hives.

GROVER & BAKER'S

New Family Sewing Machines!

PRICE, $75.00.

Reasons
Why Grover & Baker's
SEWING MACHINE
Is universally preferred for Family Sewing.

1st. It is more simple and easily kept in order than any other Machine.

2d. It makes a seam which will not rip or ravel though every thread is cut.

3d. It sews from two ordinary spools, and thus all trouble of winding thread is avoided, while the same Machine can be adapted, at pleasure, by a mere change, of spool, to all varieties of work.

4th. The same Machine runs silk, fine thread, and common spool cotton, with equal facility.

5th. The seam is as elastic as the most elastic fabric, so that it is free from all liability to break in washing, ironing, or otherwise.

6th. The stitch made by this Machine is more beautiful than any other made either by hand or machine.

We have been appointed agents for the above Machines, and have them for exhibition and sale at our store, where the public are invited to examine them.

LIQUID CATHARTIC

—AND—

FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine has long been felt both by the heads of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. Its strength is adapted to all cases where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, regulates the action of the Liver, sets the stomach from bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as *Rheumatism, Neuralgia, Tic Doloureux, Gout, Pain in the Head, Side, Stomach, &c.*

It may also be relied upon in all classes of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT—it needs no other commendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies without success, despair not—relief is now at hand. If you are suffering from Scrofula, try six bottles of my Liquid Cathartic, it will cure you. Would you be relieved from habitual Costiveness, three or four bottles will effect it. If you are afflicted with Rheumatism, Neuralgia or other local pains, two or three bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that was ever been placed within reach of the public.

PRICE $1,00.

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 167 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 4 o'clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c.; all physical impediments vanish like magic before its influence; thus rendering its use invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copavia and cubebs have so long been thought an antidote for, to the ruin of the health of a vast portion of the population.

TRIESEMAR No. 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3 are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses, as administered* by Valpeau, Lallemand, Roux, Ricord, &c. &c. Special arrangements have been made with the various Expresses, the nine dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three dollar cases sent as usual, but not free of carriage.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

New machines, of the latest improved style, will be exchanged on liberal terms, for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis.

Thrice-Weekly Kennebec Journal for 1857.

DURING the approaching session of the Legislature, the undersigned will continue the publication of the *Thrice-weekly Journal*, being the XIIIth Volume of the same.

As is well known, the chief purpose of this paper is to afford the public of Maine a faithful account of the deliberations and actions of its Legislature. With the reports of the Legislative doings, we intend also to publish the proceedings of Congress, as they are given in the best reports from Washington.

As the renewal of all the Bank Charters in the State will come before the Legislature this Winter, the debates and proceedings will be of peculiar interest to all who are interested in Bank property.

The numerous lines of railroad which now traverse the State in all directions, will enable a very large proportion of our subscribers to receive their papers a few hours after their publication. This fact renders a subscription to the Thrice-Weekly more desirable and satisfactory than in former years.

The Thrice-Weekly Journal will be published on *Monday, Wednesday* and *Friday* mornings.—The price will be

Single Copy—One Dollar for the Session,

As usual, payable in advance. Any person forwarding us $8 shall be entitled to the ninth copy for his trouble. To any one who will send us $15 we will send two copies extra for his trouble.—Whoever shall send us $24 shall be entitled to three copies extra, and in like ratio for a larger amount.

It is desirable that the names of subscribers accompanied with the money, may be forwarded at, or before the commencement of the session.—*Money remitted by mail at our risk.*

PROF. WOOD'S

HAIR RESTORATIVE!

WE CALL THE ATTENTION OF ALL, OLD and YOUNG, to this wonderful preparation, which turns back to its original color, gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff, itching, and all cutaneous eruptions—causes a continual flow of the natural fluids; and hence, if used as a regular dressing for the hair, will preserve its color and keep it from falling to extreme old age, in all its natural beauty. We call then upon the bald, the gray, or diseased in scalp, to use it; and surely the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its praise is upon the tongue of thousands.

Watertown, Mass., May 1, 1856.

PROF. O. J. WOOD: "Allow me to attest the virtues and magic powers of your Hair Restorative. Three months since, being exceedingly gray, I purchased and soon commenced to use, two bottles; and it soon began to tell, in restoring the silver locks to their natural color, and the hair, which was before dry and harsh, and falling off, now became soft and glossy; and it ceased falling; the dandruff disappeared, and the scalp lost all the disagreeable itching, so annoying before, and now I not only look but feel young again. Respectfully, yours, etc.,

CHAS. WHITNEY.

New York, Oct. 2, 1855.

PROF. O. J. WOOD—Dear Sir: After reading the advertisement in one of the New York journals, of your celebrated Hair Restorative, I procured a half-pint bottle, and was so much pleased with it that I continued for two months, and am satisfied it is decidedly the best preparation before the public. It at once removed all the dandruff and unpleasant itching from the scalp, and has restored my hair naturally, and, I have no doubt, permanently so.

You have permission to refer to me, all who entertain any doubt of its performing all that is claimed for it.

MISS FEEKS, 264 Greenwich st.

I have used Professor O. J. Wood's Hair Restorative, and have admired its wonderful effects. It restored my hair where it had fallen off; it cleans the head, and renders the hair soft and smooth—much more than oil.

MARY A. ATKINSON.

Louisville, Nov. 1, 1855.

State of Illinois, Carlisle, June 27, 1855.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of the "Restorative" it has resumed its original color, and I have no doubt permanently so. SIDNEY BREESE,

Ex-Senator United States.

[*From the Washington Star.*]

Among the many preparations now in use for the restoring, preserving and beautifying the hair, there are none that we can recommend with more confidence than Prof. Wood's Hair Restorative, now in general use throughout the States. This preparation possesses the most invigorating qualities, and never fails in producing the most happy results when applied according to directions. We refer our readers to the advertisement for a few of the innumerable certificates which have been sent by parties who have been benefitted by it, and who feel happy in giving testimony to its wonderful effects produced on them.

ANTAGONISTIC To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons (1827,) Licentiate of the Hall (1824,) and 23 years Medical Referee, &c.)

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility, Impotency, and all diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned Dr. CULVERWELL in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked, were its superiority over every means hitherto employed for the same purpose, not a sure guarantee that its employment by one person would, through recommendation, result in an exceptional sale to many.

Dr. CULVERWELL's admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded *by mail*, free of postage, to any part of the country. Address, Messrs. AYER'S Cathartic Pills

(*SUGAR COATED,*)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK. Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1856.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M.D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 15, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN J. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness**, and **Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where, which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

Boston, Aug. 20, 1856 3tawGm

THE GREATEST MEDICAL DISCOVERY Of the Age.

Dr. KENNEDY, of Roxbury, has discovered in one of our *common pasture weeds*, a remedy that cures

EVERY KIND OF HUMOR,

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H. H. HAY, 16 & 17 *Market Square, Portland, Maine*, to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.
